What We Offer

AI and Machine Learning

We leverage AI and machine learning to automate tasks, enhance decision-making, and deliver predictive insights, keeping businesses ahead in a data-driven world.

Fintech Solution

We provide fintech solutions like Trade Finance, Factoring, Invoice Financing, AI-copilots for process augmentation, and analytics to help businesses excel in the financial sector.

R&D and Consultancy

Our R&D and consultancy services offer expert guidance and innovative solutions to help businesses navigate challenges and stay ahead in technology.

Cloud Native Applications

Our cloud-native solutions optimize performance and scalability, enabling businesses to fully leverage the power of cloud environments.

Web Design and Development

We design responsive, high-performing websites that align with your brand, ensuring seamless user experiences and cutting-edge functionality.

Bespoke Software Development

Our bespoke software development is tailored to your business, providing scalable, efficient, and user-friendly solutions that adapt to your needs.

Our Products

GreenLC

GreenLC is a Blockchain-enabled Trade Finance Platform to digitize and automate the end-to-end LC process.

SpectraTrade

SpectraTrade transforms trade service management through AI, ensuring unmatched efficiency and accuracy in banking operations.

OptiFin

OptiFin presents a groundbreaking solution tailored specifically for credit-constrained SMEs operating within emerging markets.

SCOTT

Efficient toll management software with real-time monitoring and automated payment systems to streamline operations and enhance user experience.

InfraSight

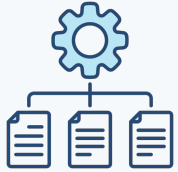

Infrastructure Monitoring offers a revolutionary solution designed to monitor your organization's hardware and metrics in real-time.

Regulatory Reporting System

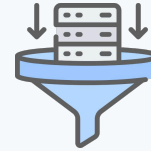

Solutions tailored for the financial industry, including blockchain, financial software platforms, data analytics, and AI tools.

AI/ML Products

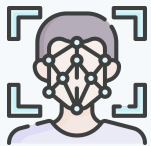

Document Classification

A visually engaging animation of documents being uploaded, processed, and classified into categories like invoices, resumes, or legal contracts.

Data Extraction

Simplify data extraction with AI-powered automation. From receipts to contracts, turn unstructured data into structured insights.

Human Detection

Harness real-time human detection for smarter monitoring. Whether for crowd control or safety management, our AI adapts to your needs.

Fight Detection

Real-time Fight detection for smarter monitoring. For safety management, our AI adapts to your needs.
