Discover Our

Fintech Products

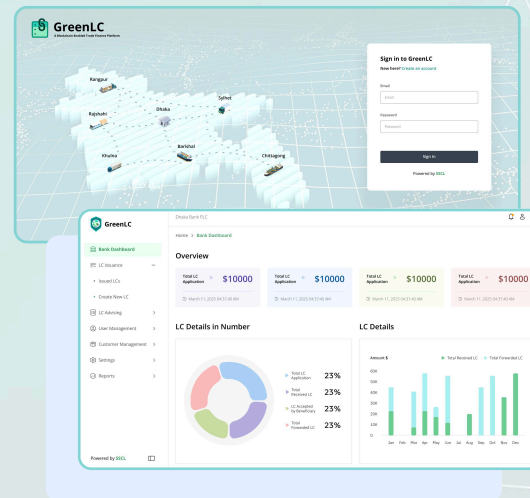

SpectraTrade

- Transforms trade service management through AI, ensuring unmatched efficiency and accuracy in banking operations.
- Enables real-time monitoring, smart automation, and seamless trade operations. Users can issue and authorize LCs, Shipping Indemnities, and Export Bills anytime, via web or mobile.

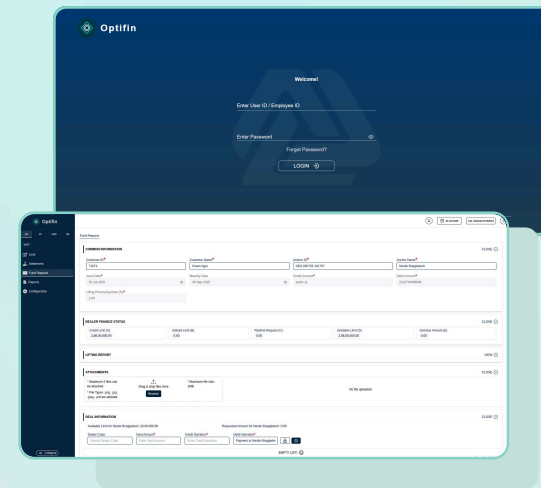

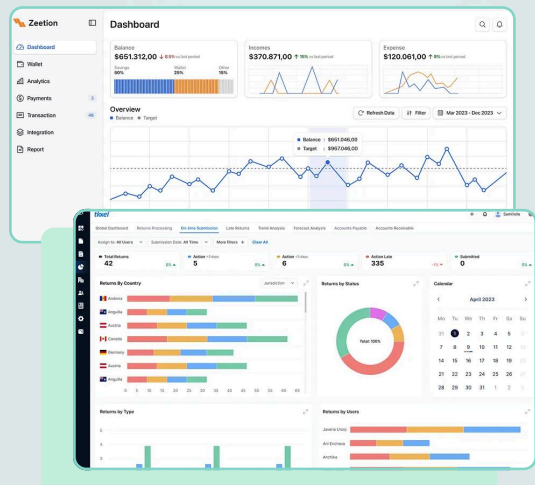

GreenLC

- A Blockchain-enabled Trade Finance Platform that digitizes the entire lifecycle of inland Letter of Credit.
- Streamlines issuance, advising, document presentation, acceptance, and discrepancy forwarding with enhanced security and transparency.

EasyDashboard

- Intuitive dashboard solution for real-time performance and trend analysis.
- Converts complex financial data into clear visual insights to support faster data-driven decisions.

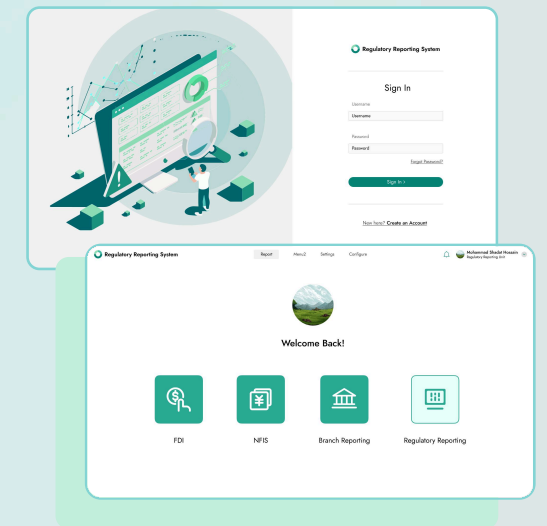

OptiFin

- A fintech solution built to empower credit-constrained SMEs in emerging markets through Supply Chain Finance.
- Utilizes existing commercial ties to enhance working capital management; benefiting SMEs, large corporations, and financial institutions alike, reducing risks across the board.

Regulatory Reporting

- Stay compliant with Bangladesh Bank requirements through automated regulatory reporting solution.

- CIB
- CL
- SBS
- Branch Report
